

1948 Rolls-Royce Silver Wraith

Six Seat Limousine - Coachwork by Park Ward

This Rolls-Royce limousine is almost identical to the 1948 four seat H.J.Mulliner bodied Silver Wraith shown opposite. However this limousine is additionally fitted with two fold away occasional seats, increasing the seating capacity to six if required.

This Silver Wraith has also been re-trimmed in ivory leather and an electrically operated division separates the chauffeur from the passengers.
